Major Gen. Uchatius, the inventor of the new Austrian gun, has also in vented a new projectile, which has been tried with such favorable results, that it will probably be adopted for use in the Austrian army. It consists of a east iron shell, about 11 millimetres in liameter, onclosing 12 rings and a center piece. Both the shell and the ring are conical in shape, and each ring is divided into 10 sections, so that when the shell explodes, 120 iron balls are sent flying in all directions.

THE LANDLADY'S STRATEGY. - LOUsville has been amused by a row in a fushionable boarding house. A boarder refused to either pay his bill or to gr way until the month for which he had bargained had expired. The landlady was told by the lawyers that the money was not legally due until the ond of the month, and that she must fulfil her part of the contract before she could sue him. She next took the case into days of ondurance.

What esteem of his fellow-citizens, and the Pantagraph in speaking of the matter deavors we are not advised. expresses the hope that Mr. D, may be able to explain affairs so as to expuerate himself from any charge of dishenesty.

THE MATTER EXPLAINED.

As numerous inquiries have been made, it seems proper that a few words gard to the funds which it is proposed REPUBLICAN: to raise by the school exhibition on Fri-

day evening. At the State Teachers' Association held at Rock Island, last month, it was determined to raise ten thousand dollars, to properly represent the educational interests of the State in the coming Contonnial exposition. The expenses which must be met by this faud are many, as in the exposition building nothing is given but a certain number of square feet of floor space, it is necessary to fit up cases and shelving for the proper exhibition of our educational products and appliances. It will be seen that this expense will be no tritling matter, when we consider that in this our work will stand side by side, not only with that of other States of the Union, but with other nations of the earth. The State of Illinois will certainly wish to stand on a par with Sweden, which is now erecting a school house on the grounds, to show its school system, and which has appropriated seventy-five thousand dollars for Centenпза1 ригровов.

Added to this, there will be the exprince of transportation of articles to and from the exposition, and the expenses of one or two responsible mer who shall have the care of the material while on exhibition at Philadelphia .-We understand that these men are to receive no salary, but are simply to have their expenses paid.

At the Decatur mosting of teachers, (above referred to), the amount proposed to be raised was apportioned among the different counties according to population. Maron county wishes to do her share in raising these funds. After some dollberation it has been thought best to hold an exhibition for that purpose. In this all the grades in the city, from the high school to the primary, are to take part, and it is hoped that a pleasant evening's entertainment will be furnish ed; and it is also hoped that our full share of the ten thousand dollars may be raised that we may not be behind our sister counties in this work, and that we may help in properly setting forth our educational resources and results at the only Centennial exposition we may hope to see.

The exercises will commence promptly sion to gallery, 25 cts. School children will be admitted to the gallery for 15 cts, COMMUTTEE.

A Good Thing to Do .- We give below r circular, issued by the Studebaker Manufacturing Co., of South bend, Ind., of the present year. The circular explains itself, and furnishes an example that is well worthy of imitation on the part of men having others in their employ, whether many or few. The following is the language of the circular: "In view of the new year and the

to present to each of you a copy of some weekly paper (such as you may select) for the year 1870. The year itself will be a memorable one, and full of incialso that it will tend to encourage in many of you an increasing desire for information, and will be altogether better appreciated by you than the ordinary gift of a Christmas turkey, to be eaten and forgotten. You can make any selection of a weekly paper you

chocse." Suppose the business men of our city follow the example of this enterprising establishment and put into the hands of heir ampleyes a good, live! county

Entertainments.-On February 3d Kelley & Leon's Minstrels will give one of their unique and taking entertain ments in this city. Below we give in part the opinion of the Bloomington Pantagraph of their performances:

Their instrumental and vocal music i of the fluest order. Mr. J. H. Surridge sang "Gathering up the shells from the see shore," and displayed a remarkable and well cultivated voice. Mr. Clinton has also a beautiful voice. The first part closed with the 'Skidmore Guards, which was stunding, and produced a storm of applause. "Norms on the storm of applause. "Norms on the half shell," by the inimitable and "only Leon," Kelley and their support, was "loud." When Leon was thrown up in a blanket, which was supposed to ropre-sent the half-shell, the audience fairly screamed. Mr. Leon as a female imper-sonator stands without a rival, as his selection and actions in the buriesque of Norma indicated. The song and dance men, Messrs. Walters and Morton, in They were encored, and were brought

Mrs. B. H. Gamon, Decutur. On her Muscle.-Yesterday afternoon about five o'clock, alderman Stephens noticed a woman in front of his resat 72 o'clock. No reserved seat tickets taurant hadly intoxicated, and as she at will be sold. Admission 50 ets.; admiss tracted considerable attention and was getting to be somewhat demonstrative,

in the absence of any police officer he took her in charge and conducted her to the calaboose, followed by quite a crowd of boys. After getting inside of the institution, the attention of the alderman was drawn away from this charge for a moment, when seeing her opportunity the woman drew off and gave him a regular "sockdolager" on the most promiment organ of his face, causing a free great variety and cheap, at flow of claret. A great Presidential Campaign will soon commence. That struggle will determine whother the Government of the United States shall continue to be grimtinistered by the party which preserved it from dismemberment or by the men who endsavored to destroy or refused to help save it, in order that Slavery might be maintained. Those who desire the Republican party to remain in power caunot more efficiently contribute to that end than by increasing the circulation of The Chicago Trimuns in their neighborhoods. A maps the leading Republican newspapirs note interestable from the contribution of the great of the present of the contribution of the great of the present of the contribution of the presidential Campaign—Revery intelligent efficiential and it had is pensable for the facts and arguments it will contain the next presidential campaign—Revery intelligent efficient will and it had is pensable for the facts and arguments it will contain the facts and arguments.
